“ I met Lenny at the beginning of my Freshmen year of High School, he was a Sophomore. I was riding the Activity Bus home for one of the first times after Football Practice, and like all Freshmen a bit nervous. Lenny sat in front of me and turned around with that big smile and engaging personality and playfully said "damn you're big, I wouldn't want to go against you". Immediately I was relaxed and felt included.

For the next 3 years Lenny and I shared many conversations as we both participated on Football and Track. Our longest conversations were at Track practice & meets where we'd spend hours talking. Lenny was like the older, more mature big brother providing guidance, advice and helping me wise up.....it was strange when we found out his Senior year that I was actually older.

I lost contact with Lenny until about 10 years ago when we connect on Social Media and shared a few brief emails. That was until Lenny shared in a message that he was going through some difficulty but didn't elaborate. His Social Media account was soon deleted and I never heard from him again.

When learning of Lenny's death I immediately regretted that I didn't do more to pursue what difficulty he was encountering and try to provide guidance, advice or help as he had done many times for me when we were young.

Lenny was simply a better man than me, but I'm certain I'm a better man for knowing him.

Rest in peace old friend. May God bless you.
